

Why choose Cxbladder?

- To screen for bladder cancer when you're at higher risk of the disease.
- In those experiencing blood in urine, the most common symptom of bladder cancer.
 - To rule out the disease, reducing the need for further invasive procedures.
 - To help confirm a diagnosis when other tests and procedures are inconclusive.
- To help reduce the frequency of surveillance cystoscopy.

When should I use Cxbladder?

- When your age, lifestyle, or medical history puts you at a higher risk of bladder cancer.
- When you've seen blood in your urine, or tests confirm the presence of blood.
- When you're being monitored for recurrent non-muscle invasive bladder cancer.
- When your cultural values or religious belief suggest a preference for discrete, non-invasive testing.

Greater confidence in bladder cancer detection and rule out

Cxbladder is a reliable, non-invasive test optimized for the detection, rule out and surveillance of bladder cancer.

Cxbladder provides answers that can help you and your Doctor make informed care decisions.

Greater confidence in bladder cancer detection and rule out

Cxbladder is a non-invasive genomic urine test optimized for the detection and surveillance of bladder cancer.

Who is at a higher risk of bladder cancer?

- Men and women over 55.
- Active smokers and those who have been regularly exposed to secondhand smoke.
- Those who may have been exposed to chemical carcinogens at work, e.g. miners, rubber, leather and textile workers, machinists.
- Those who have been treated for bladder cancer previously.
- Those with a history of blood in urine.

What is Cxbladder?

- A urine test with an easy-to-use and painless sampling system.
- A state-of-the-art test that analyzes five biomarker genes to confirm the presence or absence of bladder cancer.

Will Cxbladder give me a reliable result?

Cxbladder delivers exceptional performance.

The test is supported by over 20 peer reviewed publications in leading medical journals and has been used by over 4,400 US urologists in more than 100,000 patients.

Where is Cxbladder available?

Cxbladder is now available in the US and around the world.

In Asia Pacific the test is currently available in Australia, New Zealand, Singapore, Hong Kong, Malaysia, Thailand, Philippines, and Vietnam.

Using Cxbladder – three simple steps

1. Collection:

Submit a urine sample at home or from your Doctor's clinic. Cxbladder's sampling system is quick, easy-to-use, and painless.*

*Visit youtube.com/cxbladder to learn more about the sampling process. An express courier service will transport your sample to our lab.

2. Testing:

Your sample will be analyzed in our CLIA certified and CAP accredited laboratory.

3. Results:

A test report with actionable results will be sent to your Doctor within 7 days of us confirming arrival.
